

**Directions:** Fold this flap down on the dotted line and color the part that is showing. Trim the ends of the bar so that it begins at 0 and ends at 1. Draw lines on the colored side to divide the flap into 4 sections. The flap will represent a Fraction Bar divided into fourths. On the number lines below the fraction bar, write the fractions, money values, percents, and decimal expressions that are equal to each fourth of the bar.
